You will need to supply:

No tools are required for this installation.

IMPORTANT: For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

1. Feed strap behind grab handle.
2. Feed opposite end of strap through the slot in the end of the femal buckle between the webbing and the plastic.

3. Cinch buckle down to the grab handle. It is important that the buckle is pulled tight to the bar. This ensure the buckle will be located properly.

4. Bring the strap around the gas can handle.

5. Install male buckle.

6. Connect male to female buckle and cinch tight .
